TRAINING & EDUCATION

Topics & Speakers

The fall conference planning committee has created an amazing line up of topics and speakers you won't want to miss.

Opening Keynote - Becoming Rock Star Leaders

Jonathan Baker has wowed audiences with his unique approach to explaining the importance of challenging yourself to become a strong leader by pushing your boundaries and stepping outside your comfort zone. Jon's presentation investigates how the principles of leadership are intertwined with rock and roll music, and how the powerful emotional and physical connection to music has produced leaders who have influenced generations. Music can help us relate to others, understand ourselves, and be better leaders. As the Rolling Stones said, "It's only rock and roll, but I like it!"
